Precipitate 3.0 is in active development and is subject to breaking changes at any time. What is currently shown is a *work in progress*.

Precipitate 2.0 is canceled due to a deeper rework of the core system. 2.0 was headed in a direction that was against the design goals of the system.

You can download the current version of Precipitate version 1.1 here.

## **Random Tables** in review

### **Tomes** in review

---

1. Roll the aspect's power level
2. Roll for the aspect's rarity, then roll the corresponding follow-on table to get an aspect
3. A tome contains *5 aspects*, each in the form of 'Type: Aspect (PowerLevel)'

For details, see the magic section.
